

DRIVE YOU

Quest love, determination, hope, travel, longing, craving, relationship crisis, loneliness, reunion, survival of relationship, love and memories, can't get you off my mind, lost love, love jones

VERSE 1 I woke up in the desert where I'd been hiding out
A long long way from, oh... I don't know where to call home.
The memory of your eyes, keep on pushin' me, keep on pushin' me baby, to drive on.

VERSE 2 Oh hey now I think it's time again, I'm starting to get the blues.
All this time won't really free me
When there's too many miles between me and you and now I got no time to lose.

PRE CHORUS- **Looks like the sun is setting, shadows growing across the road
As I drive 800 miles, all the time wondering.**

CHORUS **Am I gonna drive you out of my mind
Or the next time I see you again, I'm gonna drive you crazy, sexy, cool-
Stone right out of your mind, forever lovesick fools.**

VERSE 3 Hop on my wheels, maybe hear our favorite song
On the radio from New Mexico to Colorado, well it ain't that far
Just to get next to you, win, lose or draw

VERSE 4 We'd started to try to explore what we feel inside, when destiny took the backroads,
Somehow life got too complicated, but I crave your gravity
Now it's your turn to surrender, or it's just another lost love story.

BRIDGE And the aspen are turning yellow and I've got this feeling deep down in my bones
When I drive over these mountains, gotta get to you, gotta see it through
Gonna satisfy this love jones.

PRE CHORUS

CHORUS
